FSSA Japan Equity Fund

- The Fund invests primarily in equity securities and equity related securities which are established or have significant operations in Japan and which are listed, traded or dealt in on regulated markets worldwide.
- The Fund's investments may be concentrated in Japan or a single sector which may have higher volatility or greater loss of capital than more diversified portfolios.
- Investing in small /mid-capitalisation securities may have lower liquidity and their prices are more volatile to adverse economic developments.
- The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks.
- It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.

Investment objective & strategy

The Fund aims to achieve long term capital appreciation and invests primarily in a portfolio of equity securities and equity related securities which are established or have significant operations in Japan and which are listed, traded or dealt in on regulated markets worldwide.
